

MINI TEST PACS

Table/ Floor Mount

Tank Mount

Air/ Hand Driven Mini Test Pacs are compact series of testing systems which are easy to handle and are very powerful. The air consumption for these systems is very low which makes it very efficient and gets the job done where pressure generation is the ultimate requirement. The Mini Test Pacs are available in table/floor mount and tank mount options.

FEATURES

1

Easy to handle

2

Low power consumption

3

Economical and Sturdy

4

Compatible with Wide range of fluids

5

Made with Stainless Steel Material

6

Available up to 1000 bar pressure

Each Standard System is assembled ergonomically with an Air Regulation Unit with cycling valve, 5 liters Stainless Steel Tank with filler breather, strainer, level indicator and Drain Valve, High pressure generating pump, Isolation Valve and Pressure Gauge.

Standard Models

Model	Nominal Working Pressure (barg)	Maximum Working Pressure (barg)	Hand Pump attachment	List Price (INR)
TP-33	690	1000	YES	--
TP-101	1034	1700	NO	

Note: Above prices are for standard systems

For Safety Relief Valve please add RV, For Table mount system please add TM, For Tank Mount system please add TNM
